

ANAYA JAIN

+91 9172571965 • anaya.jain0101@gmail.com • Pune, Maharashtra, India

SUMMARY

Highly focused and resourceful Grade 12 student with strong analytical abilities and a proven track record managing rigorous academics alongside extracurricular leadership. Demonstrated expertise in mathematics, computer science, and research through selective programs including the CERN International Masterclass and an IEEE research poster presentation.

EDUCATION

Grade 12 (CBSE)

Apr '27

EON Gyanankur English School, Pune, India

Grade 9, 10 (CISCE)

Apr '25

Vibgyor High, Magarpatta, Pune, India

Final Grade: 97%

TECHNICAL SKILLS

Programming Languages & Technologies: Python, C, SQL, Web Technologies

Coursework & Certifications: Harvard CS50x: Introduction to Computer Science; AP Computer Science A; AP Calculus AB

Analytical Skills: Algorithms, Data Structures, Mathematical Problem Solving, Data Analysis

EXPERIENCE

HERizon: Founder and Lead

Mar '26 – Present

Pune, India

- Founded a student-led initiative to empower girls in grades 8-10 in STEM
- Designed and launched newsletters featuring global opportunities and resources
- Collaborated with organizations across India and Kenya and volunteers to expand outreach and build a growing community of students interested in STEM

Schoolhouse.world: Volunteer Tutor

Jan '26 – Present

- Prepared students for standardized testing by reviewing essential skills and providing test-taking strategies, resulting in higher scores overall
- Conducted live SAT Math Bootcamps, Pre-Algebra, and Calculus tutoring sessions.
- Served as Summer and Fall Dialogues Club President.

Ashoka University: Lodha Genius Programme Scholar

May '25 – Dec '25

- Completed advanced coursework in Pure Mathematics, including Number Theory, Linear Algebra, Geometry, and Group Theory
- Selected as a participant in the CERN International Masterclass, analyzing real particle physics data and studying experiments such as ALICE, CMS, and Antimatter Factory.
- Visited the National Centre for Radio Astrophysics (TIFR) to study the Giant Metrewave Radio Telescope, instrumentation, and supercomputing workflows
- Served as Student Ambassador, guiding new participants and supporting coordination of program activities

New York Academy of Sciences – Junior Academy Member

Sep '26 – Present

- Selected for membership in the Junior Academy, a global community connecting high school students with STEM opportunities, mentorship, and research experiences

Kode With Klossy Summer Camp - Web Development

August 2026

- Completed an intensive web development program focused on HTML, CSS, JavaScript, and responsive web design
- Built hands-on web projects while collaborating with peers in a women-in-tech learning community

Girls Who Code Summer Pathways - AI & Data Science; AI+Society

Jun '26 – Aug '26

- Engaged in comprehensive studies of data analytics and intelligent systems through practical software projects
- Investigated the intersection of technology and ethics, focusing on the global effects of artificial intelligence

Harvard CS50x: Introduction to Computer Science

June '25 – Oct '25

- Studied algorithms, data structures, and software development; built Learning Buddy, a platform connecting underprivileged students with volunteer tutors

LEAF Independent Learner

Apr '26

- Studied Dangers and Dilemmas of AI and Mathematics of Morality, exploring ethical and mathematical frameworks underlying emerging technologies

ACADEMIC PROJECTS

Rice Leaf Disease Detection using Deep Learning

Oct '25

Research Poster Presenter, IEEE MIT URTC 2025

- Presented research on applying deep learning for rice leaf disease detection using CNNs and DenseNet architectures
- Improved image-based classification accuracy and explored integration into drone-based precision agriculture systems
- Developed skills in machine learning implementation, data analysis, and technical communication for a professional audience

Air Atlas: Hyperlocal Air Quality Mapping

Feb '26 – May '26

IoT-based environmental sensing project developed under CERN mentorship

- Designed an IoT-based air quality monitoring system using low-cost environmental sensors
- Collected and analysed air quality data from ten locations across India to identify neighbourhood-scale pollution patterns
- Built an interactive dashboard to visualise real-time environmental data

Guitar Chord Shape Identifier

Mar '26

Kode with Klossy CODE-A-BRATION project

- Built a website and developed a guitar chord shape identifier using image classification to help beginner guitarists visualize finger placements

Learning Buddy

Oct '25

CS50x final project

- Developed a platform connecting underprivileged students with volunteer tutors using HTML, CSS, JavaScript, and backend technologies

HONOURS AND ACHIEVEMENTS

- John Locke Institute Global Essay Prize 2026 – Shortlisted, Science & Technology Category — Selected from the top 17.5% of 100,227 contestants from 183 countries
- New York Academy of Sciences – Junior Academy
- Research poster presenter at IEEE MIT Undergraduate Research Technology Conference (URTC) 2025

- Lodha Genius Ashoka University Programme Scholar (Pure Mathematics)
- Selected Participant, CERN International Masterclass (Geneva, Switzerland)
- Special Mention, Model United Nations Conference
- Elected Student Council Editor
- Trinity College London Guitar Exams (Grades Initial, 1, 3, 5) with Distinction
- Certified Schoolhouse.world SAT Math Tutor and Pre-Algebra Tutor; Dialogues Club President

LEADERSHIP & COMMUNITY SERVICE

Vibgyor High: Student Council Editor

Jun '23 – Mar '24

- Led content planning, editing, and publishing for the school's official publication
- Developed strong communication and leadership skills through team coordination and editorial decision-making

Model United Nations – Intermediate Level

Jun '23 – Mar '24

- Represented China at the final conference, earning Special Mention
- Competed at school level, gaining leadership, teamwork, and diplomatic skills

Vibgyor High: Social Service Responsibility Cell

Jun'23–Mar '24

Team Member, Pune, India

- Organized and led community outreach initiatives focused on education, raising over ₹7000 to support underprivileged students
- Participated in donation drives and awareness campaigns while mentoring junior members and promoting social responsibility among peers

SPORTS & EXTRACURRICULAR ACTIVITIES

Trinity College London – Acoustic Guitar

Mar'21 – Present

- Completed Initial, Grade 1, and Grade 3 with distinction; currently preparing for Grade 5, developing strong musical skills and discipline through structured training and examinations.

LifeTide Blog

2025 - Present

- Publish reflective essays exploring science, curiosity, and personal growth.

School Dance Team

2023 – 2024

- Led the senior secondary dance team.
- Participated and choreographed in school performances and annual productions.
